About the Conference

Cardiovascular disease (CVD) remains the leading cause of death in the United States, despite rapid advancements in prevention, treatment, and technology. The **Improving Cardiovascular Outcomes: The Next Era of Prevention** conference will bring together leading national experts in cardiology, heart disease, and lifestyle medicine to address critical gaps in patient care. This **1.5-day hybrid event** will focus on the latest scientific evidence, clinical innovations, and best practices for implementing patient-centered prevention and treatment strategies.

Why Sponsor This Conference?

High Impact and Reach

- National Jewish Health is a world leader in medical education and cardiovascular research.
- The conference is designed to directly enhance clinician knowledge and patient outcomes.
- Attendees represent a multidisciplinary group of healthcare providers who treat cardiovascular disease and related conditions.
- Online enduring content will expand the audience reach beyond the live event, with video recordings available for on-demand learning.

Scientific and Educational Excellence

- Developed by **renowned faculty** from institutions such as National Jewish Health, Johns Hopkins, Stanford, and the University of Florida.
- Designed to achieve **Moore's Level 5 outcomes** by measuring improvements in knowledge, competency, and practice changes.
- Integrates **real-world case studies, interactive discussions, and audience participation** to enhance learning.
